AUCTION TERMINOLOGY

The following is a list of words or terms that you should be familiar with when bidding. If you have questions about any of these terms or any others that the auctioneer may use, we encourage you to familiarize yourself with them prior to bidding.

Times the money: The expression “times the money” is used when two or more like items are being sold at one time; in this instance your bid is multiplied times the number of items being sold. Example: Lot number 142 is four identical Cell Phones and the auctioneer announces that the auction lot is being sold “times the money”. The high bidder purchased lot 142 for \$100. In this example, the successful bidder bought each of the four Cell Phones for \$100.00 for a total of \$400.00 (4 x \$100= \$400).

Choice: On occasion, there will be multiple lots of identical or similar items sold consecutively in the auction. In some instances the auctioneer will sell those consecutive lots via “choice”. When selling “choice”, the auctioneer is offering more than one item up for auction at a time. The winning bidder then has the choice to take one item or multiple items. If the bidder wishes to take more than one item, the bid price will be multiplied by the amount of items the bidder chooses.

Choice in Order: When the auctioneer announces that the items are being sold “Choice in order”, it means that the buyer may choose to take the first numerical lot of those announced as currently being sold, or as many as they choose to take, but must take them in sequential number order, and will pay the bid price for each of the lots that the successful bidder wishes to purchase.

AS-IS: Selling the property without warranties as to the condition and/or the fitness of the property for a particular use. Buyers are solely responsible for examining and judging the property for their own protection; otherwise known as “As Is, Where Is” and “In its Present Condition.”

Bidder Number: Individually numbered card with your unique bidder number. This will identify you to the auctioneer as the successful bidder.

Bidder Registration: The process of registering your identity and ability to pay for successful bids. This is essential before bidding.

C/W - Comes With

A/T - Automatic Transmission

M/T - Manual Transmission

CNG - Compressed Natural Gas
