

SUCCESS OF INDUSTRIAL/COMMERCIAL EQUIPMENT AUCTIONS

The first half of the year has seen an increase in both the amount of Industrial/Commercial Equipment being sold and in the prices achieved. The heavy equipment ring at Sierra Auction continues to produce total sales of over a quarter of a million dollars per auction. Sierra Auction has seen the industrial/commercial equipment prices raise even in this hard economy.

Sierra Auction is capable and ready to handle the sale of your industrial/commercial equipment, as either a part of one of our monthly auctions, or as a separate auction at your location. Sierra Auction is poised to become a major player in the Industrial/Commercial Equipment auction arena. Contact one of our knowledgeable staff members to arrange an appraisal.

RECORD CROWDS FOR ON-SITE AUCTIONS

Sierra Auction has had the opportunity to conduct several on-site auctions. Whether it was auctioning vendor space for the City of Phoenix, surplus vehicles for the city of Coolidge and Maricopa County Community College District, or going out of business sales for restaurants or appliance stores, Sierra Auction has drawn record crowds and record prices.

One of the ways Sierra Auction has increased the on-site sales is by having the capability to have auctions both live and online. Sierra's investment in equipment has allowed us to bring the on-line portion of our auction to the remote sites. We have conducted on-site auctions in both Benson and Wilcox where we were able to provide on-line bidding as well as the live auction.

DID YOU KNOW?

Sierra has a FEDERAL FIREARMS LICENSE

If your organization has been struggling with what to do with the disposition of firearms, you'll be happy to know that Sierra Auction operates with a Federal Firearms License (FFL) and by law requires that successful bidders pass an Alcohol Tobacco and Firearms (ATF) NICS check before releasing firearms. Sierra Auction has responsibly sold thousands of firearms over the last several years with the full approval of the ATF and federal firearms requirements.
